\$ (Your objective in terms of annual income at retirement, expressed in today's dollars)

Please make your investment mix selection from either **OPTION 1** or **OPTION 2**, as desired. **Please select only one option.**

The following investment mixes vary based on different investor profiles. Your investment strategy should be based on your overall financial situation. These investment instructions apply to all future deposits until alternate investment instructions are provided.

Definitions:

Lifecycle Movement

Lifecycle Movement adjusts your Avenue portfolio over time so that your investments remain appropriate to your investor profile and investment period. It is automatically activated when you pick an Avenue portfolio, and you can deactivate it at any time by using the check box below the Avenue portfolios.

Systematic Asset Rebalancing (SAR)

- 1) Systematic asset rebalancing will align all your market-related funds according to your investment instructions.
- 2) Systematic asset rebalancing should not be elected if a different mix is applicable to a transfer or lump sum deposit, as the allocation of different investment instructions to a transfer or lump sum will be overridden at the time of rebalancing.
- 3) Systematic asset rebalancing will only be performed on your guaranteed term funds if the percentage held in these assets falls below the percentage specified in your investment instructions. In short, guaranteed term funds will be purchased to realign your mix but they will not be sold.
- 4) Systematic asset rebalancing is automatically activated when you pick an Avenue portfolio or À la carte funds, and you can deactivate it at any time by using the check box below the Avenue portfolios and the À la carte funds.

Option 1: Avenue portfolios™:

Target age

Your target age is the age at which you wish to retire or convert these savings into income. It is important to provide your desired target age if you wish to select an Avenue portfolio and use the Lifecycle Movement service. **If you do not provide a target age, we will assume that your investment period will end at age 65. If, however, you wish to record a different target age, please enter it here _____.**

If you select an Avenue portfolio that is not consistent with your target age and your investment period, we will deactivate Lifecycle Movement.

Important Notes

- A. If your investment instructions are incomplete, contributions will be invested in the Moderate Avenue portfolio corresponding to the investment period based on your age.
- B. Please note we (Manulife) neither suggest nor recommend any investment approach or fund in particular, whether it is an Avenue portfolio or a personal investment selection. Market-related funds are not guaranteed and the value of a member's units will vary according to market conditions and the success of the funds' manager. We are not responsible for the returns of the selected investments. Furthermore, the selection of an Avenue portfolio is no promise or guarantee, explicit or implied, that selected investments will generate a satisfactory retirement income.
