

Database Administrator

Vestcor Inc. has a full-time position available for a Database Administrator.

Located in Fredericton, Vestcor is the largest investment manager in Atlantic Canada providing global investment management services to nine different client groups representing approximately \$19.4 billion in assets under management. We also provide administration services to eleven pension plans and four employee benefit plans.

Reporting to the Director of Information Technology and working closely with Programmer Analysts as well as the Quantitative Investment and Applied Research team, the Database Administrator supports all areas of the business in meeting their data requirements. Responsibilities include providing guidance and support during development initiatives, managing database access and performance, implementing policies and standards and deploying internally developed solutions to production environments.

The ideal candidate should have a post-secondary diploma in a database administration or related discipline and have working knowledge of T-SQL, PowerShell, SSIS, SSRS, and MDS scripting languages as well as Big Data and machine learning.

The successful candidate will be a team player with strong problem solving and technical analytic skills. They will also have excellent communication skills with the ability to present computing concepts to technical and non-technical staff.

In the covering letter, candidates **must** demonstrate why they believe they have the required qualifications and skills for this position.

We offer a competitive salary, an excellent benefits package and a challenging and rewarding team environment. The successful candidate will participate in the New Brunswick Public Service Pension Plan.

Interested applicants must forward their cover letter and resume by July 11, 2022 to:

Manager Human Resources
